

Enable Your Finance Team to Improve Your ESG ROI with IsoMetrix Lumina™

Drive greater efficiency, accuracy, and auditability when collecting and reporting on ESG and Sustainability data from across your business and your value chain.

IsoMetrix Lumina™ helps finance teams identify opportunities, reduce risks, maintain an accurate view of their internal cost of carbon, and grow stakeholder value through ESG-related initiatives.

Scale Your ESG Program

Reduce data collection and reporting burdens so your team can focus on strategic planning and program management.

Automate greenhouse gas calculations across Scopes 1, 2, and 3 leveraging thousands of emissions factors and improve assurance in non-financial disclosures.

Meet Disclosure Requirements with Ease

Maintained content for TCFD, CDP, GRI, SASB and other standards mean you always have the latest versions.

Manage regulatory compliance and easily incorporate custom reporting criteria and frameworks to satisfy stakeholder demands.

Improve Your Sustainability Strategy

Gain unparalleled insight into the strengths and improvement areas of your ESG and sustainability initiatives to make better capital allocation decisions and drive profitability.

Leverage Lumina's reporting engine to track progress against your objectives with turnkey and custom dashboards.
